COMPLIANCE WITH THIS PUBLICATION IS MANDATORY

AFMAN 23-110, Volume 2 (CD), Part 2, Chapter 21, 1 April 1997, is supplemented as follows:

SUMMARY OF REVISIONS

This revision clarifies the procedures for documenting the turn-in and disposal of hazardous waste and realigns paragraph with the new manual.

21.154.1. Under no circumstances will hazardous waste be turned-in to Supply. The generating activity must retain physical custody until arrangements are made for pickup. Documentation required for starting the disposal process is DD Form 1348-1A, Issue Release/Receipt Document. The generating activity will submit completed DD Form 1348-1A to the host Navy Environmental Department. Inspection in Supply (LSS/LGSD) will assist the generating activity in filling out the paperwork, if necessary. Prior coordination with Bioenvironmental Engineering (FW/SGPB) and Civil Engineering (FW/CE) is required.

ROBERT E. LYTLE, Colonel, USAFR
Commander

Supersedes 926 FG Supplement 1, AFM 67-1, Vol II, Part Two, Chapter 21, 25 Feb 94.
