This instruction establishes work center mnemonics for the 944<sup>th</sup> Fighter Wing. These work center mnemonics will be used when making documentation within the Core Automated Maintenance System (CAMS). It implements AFRPD 21-1, *Managing Aerospace Equipment Maintenance*. This instruction applies to maintenance activities within the 944th Fighter Wing.

**SUMMARY OF REVISIONS**

This revision incorporates text reformat, changes OPR, updates references in Attachment 1, and revises workcenter designations in Attachment 2. A (I) indicates revisions from previous edition.

**1. Responsibility.** Mnemonic codes will be assigned by designated representatives of the Analysis and Data Base Management Section, Logistics Plans, and maintenance supply liaison (MSL).

**2. Procedures.** The work center mnemonics (see attachment 1) will be utilized by work centers for assigned personnel, equipment and documentation. Work centers followed by an asterisk (\*) are non-reporting centers. As such, assignment of 10X labor personnel or documentation is not authorized for those work centers mnemonics. Those work centers that have a (+) must remain unchanged and in CAMS.

CRAIG S. FERGUSON, Colonel, USAFR  
Commander
